MALICO Anchoring clamp and spiral suspension device

MALICO®

PA FO 400 D

Anchoring clamp MALICO

- / Span < 100 m.
- / Wide range of cable diameters that preserves the cables integrity.
- / Only two references for ADSS cables diameter 10 à 16 mm.

- PA FO 400 D 10 14 - Capacity 10 to 14 mm
- PA FO 400 D 12 16 - Capacity 12 to 16 mm

- / Excellent distribution of the clamping stress thanks to the long and enveloping wedges.
- / The stainless steel bail offers an excellent resistance to aeolian vibrations.
- / Easy to install.

SS FO B

Spiral suspension device

- / Span < 50 m.
- / Range for ADSS cables diameter from 6,2 to 15 mm.

- SS FO B 048-062 - Capacity 4,8 to 6,2 mm
- SS FO B 062-078 - Capacity 6,2 to 7,8 mm
- SS FO B 078-095 - Capacity 7,8 to 9,5 mm
- SS FO B 092-108 - Capacity 9,2 to 10,8 mm
- SS FO B 107-128 - Capacity 10,7 to 12,8 mm
- SS FO B 128-150 - Capacity 12,8 to 15 mm

- / Compact parallel cable set: 40 mm spacing between cables.
- / Rigid fitting below crossarm.
- / Quick assembly by clipsable pin.

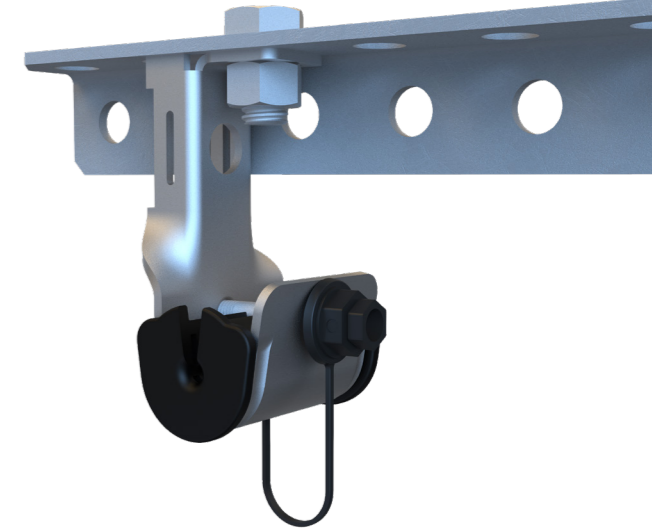

- / Good resistance to aeolian vibrations.
- / Good hold of the cable to the installation tension.
- / Safe and quick installation, tool-free.

PST

Suspension clamp

- / Versatile.
- / Duly controlled tightening torque of the sleeve.

- / Different installation configurations :
 - Under crossarm
 - On a hook
 - With an existing through bolt
 - By steel strap.
